Continuation of 3. NOTE:

Applicant has amended independent claims 1,18, and 35. More specifically, applicant has incorporated the subject matter of claims 9, 26, and 43 into claims 1,18, and 35, thereby changing the scope of the independent claims and their dependent claims. Additionally, applicant has added the new limitation that comparing the outgoing PCS with a destination community set of said first data packet takes place "prior to transmitting the first data packet to said destination community". Examiner respectfully notes that such amendments would require further search and/or consideration.
